

Luann Luna

Senior iOS Developer

luann.marques@gmail.com | +5598981764061 | in/luannluna

SUMMARY

Senior iOS Developer with over six years of experience in developing high-performance applications utilizing Swift, SwiftUI, and UIKit. Proficient in MVC, MVVM, VIP, and VIPER architectural patterns. Led features that enhance user engagement, accuracy, and application performance. Committed to designing intuitive interfaces and optimizing app efficiency.

EXPERIENCE

Senior iOS Engineer, Sebratec — December 2022 — Present

- Utilized Clean Architecture principles to design and implement a loyalty program module, resulting in a 150% increase in user engagement.
- Critical crashes were completely resolved, resulting in an app stability improvement from 3.2 to 4.7 stars through the diagnosis of memory leaks.
- SwiftUI adoption has accelerated development velocity by 50%, reducing feature delivery time from 4 weeks to 2 weeks.

Senior iOS Developer, Turing — August 2022 — November 2022

- Led the optimization of the StubHub sales module, resulting in a 35% increase in listing completion rates and improved user experience.
- Strategic unit test coverage expansion was implemented, resulting in a 40% increase in code reliability through continuous refactoring utilizing XCTest.
- Migrated legacy interfaces to SwiftUI, resulting in a 30% reduction in maintenance overhead and enhanced visual consistency across the platform.

Senior iOS Engineer, Capgemini — July 2021 — June 2022

- Led the optimization of authentication performance, resulting in a 65% reduction in login times.
- The implementation of Firebase-powered feature flags resulted in a 40% enhancement of the Quality Assurance (QA) processes.
- A server-driven UI architecture has been developed, which significantly enhances the speed of interface updates by 70%.

Mid iOS Developer, Dextra Digital (CI&T) — October 2019 — June 2021

- Developed geolocation-based news features that resulted in a 50% increase in app downloads and a doubling of user session duration.
- Enhanced code reliability by 75% through improved test coverage utilizing XCTest and Quick/Nimble.
- Developed a cross-application UIKit design system that significantly reduced UI inconsistencies by 80% and streamlined the design implementation process.

Junior iOS Developer, Verité Soluções — July 2018 — September 2019

- Developed and deployed three interconnected iOS applications, significantly improving business management for over 500 operations.
- Utilizing Firebase Analytics resulted in a 45% enhancement in application performance, thereby significantly reducing load times.
- Enhanced user engagement by 405 users through geolocation and push notifications, resulting in increased app usage.

EDUCATION

Bachelor of Computer Science — Federal University of Maranhão — 2016

SKILLS

Swift, SwiftUI, UIKit, Objective-C, Combine, RxSwift, MVC, MVVM, VIPER, VIP, Clean Architecture, SOLID Principles, Design Patterns, Xcode, SPM, CocoaPods, XCTest, Quick/Nimble, Firebase, GraphQL, REST APIs.
